

List of Mills Potentially Connected to Henkel's Palm-Based Supply Chain in 2025

Palm oil, palm kernel oil, and their derivatives are key renewable raw materials for our detergents, cleaning products, hair and body care products. Although we use less than 0.2 percent of global palm oil production, we aim to ensure that all of our ingredients come from sustainable sources. We work with suppliers and partners across the value chain to achieve full NDPE (No Deforestation, No Peat, No Exploitation) compliance.

The total amount of palm oil, palm kernel oil, and respective derivatives purchased by us in 2025 was 79,435 metric tons. The proportion of certified materials amounted to 98 percent, based on evaluation of 78,812 metric tons (99 percent of total volume), to determine target achievement. Our target achievement is at 98 percent. Henkel is at the end of a long and often highly complex supply chain. That is why we conduct annually an in-depth investigation and mapping of our supply chain with the support of an independent third-party, the Action for Sustainable Derivatives (ASD). The aim is to increase transparency by mapping upstream value chain partners and sourcing areas linked to refineries, mills and plantations. For 2025, they found out that 875 mills were potentially connected to our top ~95 percent volumes of palm-based derivatives supply chain. Below we disclose the detailed location, parent companies and the names of our potentially connected mills. They are mainly located in five countries: Indonesia (63.17 %), Malaysia (28.59 %), Papua New Guinea (2.47 %), Guatemala (2.05 %) and Thailand (1.73 %), with the top five provinces being Sabah (18.01 %), Riau (14.80 %), Kalimantan Tengah (8.85 %), Kalimantan Barat (7.81 %) and Kalimantan Selatan (7.17 %). Based on the identification of sources, Henkel is able to conduct a preliminary geographical risk assessment, and to engage with direct and indirect suppliers towards ensuring our requirement at Henkel of full NDPE compliance (No Deforestation, No Peat, No Exploitation).

The disclosed palm oil mills list is correct to the best of our knowledge at the time of publication. We have made considerable effort to validate the data but cannot guarantee its full accuracy or completeness. Therefore, Henkel makes no representation or warranty as to the accuracy and completeness of any third-party information contained herein.
